

Technical Perspectives on Analyst's Rating Changes

LLTC – case study
02-24-2008

LLTC – The TPARC report from October 3, 2005 indicated that the stock was in a trading range but trending down. The downtrend continued and the support at the low end of the trading range broke down. The stock has continued to perform poorly and it still remains below the 45-degree Bearish Resistance Line. The stock has lost about 25% of its value since the TPARC report was sent out.
